Until we get some guidance on response to BoR Report, I'm reluctant to have you do RRT group meetings at this point. We could raise it on the 1:00 Reggie call and see what the reaction is.

Would it be ok for me to talk to these regional RRT groups about GKM? If there are concerns I can limit the discussion to the notification requirement that we discussed with our RRT per the Mathy memo or decline to talk at this time. There will be states and other participants at these meetings.

Thanks

Hey David,

Per our quick chat yesterday, I'm following up on the requests for R8 participation in various RRT meetings. I will be in a little later today (have a kid issue this morning) so we can chat more if you like but wanted to get this to you.

-R9 requests R8 GKM overview/participation on Wed 11/4, 1100-1215 (Nevada time, which I

think means 1200 our time)

-R5 requests R8 GKM overview on Thursday 11/5, 0950-1000 (Indiana time, which I think makes it 0850 our time?)

I have training all week next week, otherwise, I would help. If we don't have someone who can help with these, that is fine, we just need to let the other regions know. Many thanks, G

Gina Cristiano
